

SEA 2022 – PÓSTERES COSMOLOGÍA Y ASTROPARTÍCULAS

(001) Title: Presentation of the book: "Fundamental ideas in Cosmology. Scientific, philosophical and sociological critical perspectives" (IoP Science, 2022)

Speaker: MartÃn LÃ³pez-Corredoira
Authors: MartÃn LÃ³pez-Corredoira

(002) Title: Probing the Extragalactic Background Light with the MAGIC telescopes

Speaker: Roger Grau
Authors: Roger Grau and Abelardo Moralejo for the MAGIC collaboration

(003) Title: Detection of point sources in the CMB intensity using machine learning techniques

Speaker: P. Diego-Palazuelos
Authors: P. Diego-Palazuelos, R. B. Barreiro, P. Vielva, D. BalbÃ;s, M. LÃ³pez-Caniego, D. Herranz, B. Casaponsa

(004) Title: Shedding light on low-mass subhalo survival with numerical simulations

Speaker: Alejandra Aguirre-Santaella
Authors: Alejandra Aguirre-Santaella, Miguel A. SÃ¡nchez-Conde, Go Ogiya, RaÃºl Angulo, Jens StÃ¤cker

(005) Title: Simulations of Galaxy Halos for the DUNES/ARRAKIHS Space Missions to Unveil the Nature of Dark Matter

Speaker: Alejandro CamazÃ³n Pinilla
Authors: Alejandro CamazÃ³n Pinilla, Rafael GuzmÃ¡n, MariÃ¡ngeles GÃ³mez-Flechoso, Santiago Roca-FÃ;rbreg, Santiago Serrano, Alejandro Serrano-Borlaff, David MartÃnez-Delgado, Paul Torrey

(006) Title: Photo-z in cosmological surveys with ML algorithm: effects of incompleteness with DNF

Speaker: Laura Toribio San Cipriano
Authors: Laura Toribio San Cipriano, Juan De Vicente, Eusebio SÃ¡nchez, Ignacio Sevilla-Noarbe, Jacobo Asorey, Juan Mena-FernÃ¡ndez and David Cid

(007) Title: Detection of very-high energy gamma rays from RS Ophiuchi nova outburst with the Large-Sized Telescope of the Cherenkov Telescope Array

Speaker: Maria Isabel Bernardos MartÃn
Authors: Mar ÍñÃ±a Isabel Bernardos Mart ÍñÃ±a, Arnau Aguasca-Cabot, David Green, Yukiho Kobayashi, Ruben L Íñopez Coto for the CTA LST Project

(008) Title: Expansion Lensing â€“ A new insight on Friedmann-LemaÃ®tre-Robertson-Walker metric

Speaker: Juan De Vicente
Authors: Juan De Vicente

(009) Title: Supernovae in the Infrared avec Hubble (SIRAH), an HST WFC3/IR-only Hubble diagram

Speaker: I. Perez-Fournon

Authors: I. Perez-Fournon, F. Poidevin, C. Jimenez Angel, R. Marques-Chaves, R. Shirley, and Saurabh Jha on behalf of the SIRAH consortium

(010) Title: Spectral and morphological analysis of the polarized synchrotron emission

Speaker: Felice Antonio Martire

Authors: F.A. Martire, R.B. Barreiro and E. Martínez-González

(011) Title: ¿What information about the Primordial Power Spectrum can non-parametric bayesian modeling of LSS catalogues can give us?

Speaker: Guillermo Martínez Somonte

Authors: Guillermo Martínez Somonte, Airam Marcos Caballero, Enrique Martínez González

(012) Title: Strongly lensed stars at extreme magnification factors

Speaker: J. M. Palencia , J. M. Diego and Bradley J. Kavanagh

Authors: J. M. Palencia , J. M. Diego and Bradley J. Kavanagh

(013) Title: Observations and analysis of BL Lacertae VHE emission with the Large Size Telescope (LST-1).

Speaker: Juan Escudero Pedrosa

Authors: Katsuaki Asano, Seiya Nozaki, Chaitanya Priyadarshi, Gabriel Emery, Juan Escudero

(014) Title: Hyper Suprime-Cam \$3 \times 2\$pt analysis in harmonic space as precursor of the LSST

Speaker: D. S. Cid

Authors: D. S. Cid, F. J. Sánchez, A. Nicola, D. Alonso, E. Phillips-Longley, C. Chang, J. Zuntz, J. Ellison, E. Rykoff, A. Broussard, H. Awan, Z. Du, H. Awan

(015) Title: Hyper Suprime-Cam \$3 \times 2\$pt analysis in harmonic space as precursor of the LSST

Speaker: D. S. Cid

Authors: D. S. Cid, F. J. Sánchez, A. Nicola, D. Alonso, E. Phillips-Longley, C. Chang, J. Zuntz, J. Ellison, E. Rykoff, A. Broussard, H. Awan, Z. Du, H. Awan

(016) Title: The central cores of dwarf galaxies often defy modified Newtonian dynamics (MOND) gravity

Speaker: J. Sanchez Almeida

Authors: J. Sanchez Ameida

-*1 Å°345678 90431Å°8 1234ul±-â‰¤` NM,ymmetry in T and E sky maps for Planck PR4 data using a new inpainting approach

Speaker: Christian Gimeno Amo

Authors: Christian Gimeno Amo, Enrique Martinez Gonzalez, Rita Belen Barreiro Vilas

(018) Title: Exploring the binomial distribution function in the context of Halo Occupation Distribution models

Speaker: Bernhard Vos Gin  s

Authors: Bernhard Vos Gin  s, Violeta Gonz  lez-P  rez,
Santiago   vila P  rez

(019) Title: Strong Blended Lyman alpha absorbers as a new BAO tracer

Speaker: Ignasi P  rez-R  ols

Authors: Ignasi P  rez-R  ols

(020) Title: GRB 160410A, the first chemical study of the circumburst area of a Short GRB

Speaker: Jos   Feliciano Ag  n Fern  ndez

Authors: Ag  n Fern  ndez, J.F. et al.

(021) Title: Preliminary Results from QUIJOTE Thirty and Forty GHz Instrument (TFGI)

Speaker: Fern  ndez-Torreiro, Mateo

Authors: Fern  ndez-Torreiro, Mateo ; Rubi  to-Mart  n, Jos   Alberto ; G  nova-Santos, Ricardo Tanaus  

(022) Title: New constrains on the AME polarisation with QUIJOTE in bright Galactic molecular complexes

Speaker: Raul Gonzalez Gonzalez

Authors: Raul Gonzalez Gonzalez, Ricardo Tanausu Genova Santos, Jose Alberto Rubi  to Martin

(023) Title: Cosmography of Laniakea: Type Ia supernovae, peculiar velocities and dark matter

Speaker: Llu  s Galbany

Authors: Llu  s Galbany, et al.

(024) Title: Latest results with QUIJOTE: Anomalous Microwave Emission in compact regions

Speaker: C.H. L  pez-Caraballo

Authors: C.H. L  pez-Caraballo; F. Poidevin; R. G  nova-Santos; J.A. Rubi  to Mart  n

(025) Title: The LSPE-STRIP instrument for microwave polarization studies from the Canary Islands

Speaker: C.H. L  pez-Caraballo

Authors: C.H. L  pez-Caraballo; F. Cuttaia; J.A. Rubi  to Mart  n; R. G  nova-Santos; M. Bersanelli; D. Mennella

(026) Title: Exploring a new linear combination approach to recover the polarization of the Cosmic Microwave Background emission.

Speaker: I. Mart  nez Oca  a

Authors: I. Mart  nez Oca  a; C. H. L  pez-Caraballo; R. G  nova-Santos; J. A. Rubi  to Mart  n

(027) Title: The search of dark satellites with gamma rays
Speaker: Miguel Sánchez-Conde
Authors: Miguel Sánchez-Conde

(028) Title: Gamma-ray Astronomy with the HERD space cosmic-ray
detector
Speaker: Luis Fariña
Authors: Luis Fariña on behalf of the HERD Collaboration
